

It's Cool to Save at School™

SCHOOLSAVINGS.COM™ is the world's number one provider of online school banking software. Since 1980, more than 3,000 schools have benefited from its use. More than 2,000,000 students have deposited more than \$50 million into their personal savings accounts from school.

START EARNING AND LEARNING NOW!

Founded in 1980, School Savings is a bank-at-school program for students ages 5-18. Approved by the U.S. Department of Education as a Model Program in 1985, it improves students' math and civics skills while proving that saving at school is practical and fun!

IT'S COOL TO SAVE AT SCHOOL™

With today's economy, helping students learn to save has never been more important. But Websaver®, the school savings banking software, makes it fun by keeping track of Super Saver™ Points. For each deposit students receive points which can be used for contests and other fun events. Be sure to check your receipt for Super Saver™ Points and watch your money grow!

PARENTS LOVE IT TOO!

Parents know the value of a "savings habit" established early in life. They love the convenience of saving at school. And now, they can track their student's school deposits online—together. Using our online savings register, students reconcile their school deposits with their account statement and track progress towards a savings goal.

HOW DOES IT WORK?

On Deposit Day, School Volunteers help students make deposits into their REAL bank or credit union accounts. Each student receives a receipt and Super Saver™ Points. School Volunteers then transport the student funds to a local financial institution. Deposits appear on the students' regular statement. Withdrawals are made at the bank or credit union. This award-winning program instills pride and confidence in students by teaching them how to be responsible with their money.

ENROLLMENT STEPS

1. OPEN AN ACCOUNT

Open a "youth" fee-free deposit account at any US bank or credit union or use an existing account. Deposits will be accepted from students with an account at any US bank or credit union.

2. ENROLL AT WWW.SCHOOLSAVINGS.COM™

Once you have an account number, visit www.schoolsavings.com to establish an account for yourself and then ADD your student. Just click the "Sign Up" link to begin. Register a valid email address to track your student's deposits online from home and receive deposit alerts. Computers with internet access are available at most libraries and at school.

3. GET INVOLVED!

Remind your students to save regularly. Help them set achievable savings goals and reward them for accomplishment.

Show your commitment by VOLUNTEERING on Deposit Day to count coins and applaud savers! It's fun and only requires an hour of your time—usually in the morning just before school begins. Contact your Coordinator for more information.

"One of the most important lessons my son learned in school was the banking program - he will take it with him the rest of his life."

— Dianne Henderson, Parent Volunteer, Southampton, NY

"It's great that the kids can put in from a penny to whatever! School Savings gives all kids an opportunity to save."

— Sue Zeller, Parent Volunteer, Harrison Elementary School, Cottage Grove, OR

PROGRAM COORDINATORS WILL NOTIFY YOU WHEN BANKING BEGINS.

START A SAVINGS REVOLUTION IN YOUR FAMILY!™

Students with 10 or more deposits qualify for the NATIONAL Super Saver™ Drawing in April!
